

We are one of the world’s largest firms of consultants with offices in Asia, United Kingdom, Europe, Australasia, North America and Africa. Our Hong Kong office employs over 1,500 staff engaged in design, management and consulting services for a variety of building, civil engineering, transportation, environmental and industrial projects.

Arup Security Consulting is the specialist security group within Arup, with staff and projects globally. We operate in four main markets – property, social infrastructure, energy, and transport. Arup has been voted “Security Consultant of the Year” for 5 out of the last 8 years in the UK.

Job Description	
Group	Arup Hong Kong
Job title	Physical Security Consultant
Job brief/purpose	Arup Hong Kong/Arup Security Consulting require an experienced Security consultant with expertise and a core competency in physical security measures and design. Physical security covers measures such as doors, locks, fences, barriers, road blockers, bollards, landscaping features etc. A comprehensive understanding of the relationship between physical security, electronic security, and active security is required, as is experience in working within both the built environment and existing buildings and facilities.
Relationships	Reports to the head of the Security practice in Arup Hong Kong. The post holder will be an integral part of the Arup global security business and will have a soft line report to the global security business network including Arup Security Consulting in the UK, Australia and USA.

<p>Responsibilities</p>	<p>The Security Consultant should demonstrate experience in understanding a client’s needs and developing these needs into a risk based strategic direction, from which detailed operational requirements are derived for mitigation measures. The Consultant will need strong presentation skills. Specific responsibilities include:</p> <ul style="list-style-type: none"> • To plan and design physical security measures (including but not limited to doors, locks, barriers, fences bollards, road blockers, walls) as part of a holistic Arup Security service offering. • Produce schematics, technical drawings and technical specifications for the above. • Demonstrate an understanding of various design standards for the above measures. • Have a comprehensive knowledge of current products, technologies, and providers as well as of concepts such as CPTED. • Have a comprehensive knowledge on integrating and / or interfacing such measures to electronic security measures. • Have experience working in multi-disciplinary design teams and providing subject matter input. • To assist with the delivery of technical services and deliverables. • To liaise with subject experts within Arup on such matters as counter terrorist design, bomb blast, fire, structural. • To assist project management of the commercial, technical and programme delivery aspects of security projects. • To assist with marketing activities and development of opportunities as required.
<p>Scope</p>	<p>The appointment is for a Security Consultant to work on a variety of projects in each of the 4 core Arup markets:</p> <ul style="list-style-type: none"> • Energy, Resources & Industry • Property • Social Infrastructure • Transport
<p>Environment</p>	<ul style="list-style-type: none"> • The appointment will be based in the Arup Hong Kong office with opportunities to travel and/or work in the Asia region.
